

Museum Garden Club of Jefferson

Butterflies, Birds and Blooms

Barbara Katz

Morris County

Master Gardener

Pollinator Garden is gaining more interest. Ethereal butterflies and song birds have always been a beautiful addition to a flower garden. Just by growing the right plants, we can attract butterflies, caterpillars, and birds and encourage them to propagate themselves, as well as plants, and flourish within our gardens. Barbara Katz is a certified Master Gardener of Morris County with the Rutgers Cooperative Extension. Please join us for a fun and informative evening. The talk is approximately 45 minutes long with Q&A afterwards.

Tuesday April 17, 2012

7:00 PM
